PROFILE

Empathic idealist backed by analytical thinking, helpful by nature I love creating processes and automation to simplify one's life. I'm a constant learner that can pivot quickly to the situation. I love working with great, genuine people and have developed strong communication skills and team management abilities.

WORK EXPERIENCE

Software Engineer   02/2020 – 06/2020
General Assembly, Melbourne, Australia

Completed a 12-week immersive course as a Software Engineer. I learnt topics and technologies such as HMTL, CSS, JavaScript, DOM, Ruby, PostgreSQL, REST, MVC, ReactJS and many more. During the course, I built 4 web applications listed below:

- LifeBoard Dashboard
A React-based dashboard built using Hooks, Styled Components, Ajax & various restful APIs.

- Magic Melbourne Moments
A group project showcasing our understandings of APIs, Git & Github project management, NodeJS, Ajax, Express framework and TDD.

- The Network manager
A back-end based app to record the people you meet and their connection to others, like a social circle tracker. Built using Ruby and Sinatra with Postgres as database.

- Tic - Tac - Doh!
A Simpson-based logic game based around DOM manipulations using front-end languages such as HTML, CSS, Javascript (vanilla) & animation libraries.

Production Manager,   06/2013 – 03/2020
Tour Manager & Sound Engineer
Freelance, Worldwide

Successful Music Industry professional I worked with bands such as Xavier Rudd, Wolfmother, The Growlers & many more.
Key Achievements:
- Reduced touring expenses by 20%
- Improved technical equipment
- Cut set-up time by 25-40% by improving efficiency
- Learnt to successfully manage a team in high pressure environments
- Learnt to meet tight deadlines
- Learnt to deliver the highest quality product on a daily basis

I AM..

100%	100%	100%
Passionate	Resourceful	Team Player

SKILLS

Development Skills

JavaScript, ReactJS	Competent
NodeJS, Express	Competent
Ruby, Rails, Sinatra	Competent
HTML / CSS	Professional
SQL (PostGres)	Competent
Agile || OOP || TDD	Good
RESTful APIs	Good
AWS EC2, Amplify	Good

Languages

English	French	Spanish
Fluent	Native	Native

ACHIEVEMENTS

- Led team of 12 people on the road for 90 days
- Mixed musical bands for crowds of 40,000+ people
- Improved setup times from 4 hours to 2h30 hours
- Dealt with multiple stakeholders and difficult clients on a weekly basis
- Developed an unflappable attitude and solution-based mindset by working in the Music Industry
- Started a job as a pick-packer and within 2 weeks I was doing payable/receivable, payroll and daily bank reconciliation
