PROFILE

Empathic idealist backed by analytical thinking, helpful by nature I love creating processes and automation to simplify one's life. I'm a constant learner that can pivot quickly to the situation. I love working with great, genuine people and have developed strong communication skills and team management abilities.

WORK EXPERIENCE

Software Engineer   02/2020 – 06/2020
General Assembly, Melbourne, Australia

Completed a 12-week immersive course as a Software Engineer. I'm learning topics and technologies such as HMTL, CSS, JavaScript, DOM, Ruby, PostgreSQL, REST, MVC, React and many more. During the course, we are building 4 web applications. So far, I have built:

- LifeBoard Dashboard
A React-based dashboard built using Hooks, Styled Components, Ajax & various restful APIs.

- Magic Melbourne Moments
A group project showcasing our understandings of APIs, Git & Github project management, NodeJS, Ajax, Express framework and TDD.

- The Network manager
A back-end based app to record the people you meet and their connection to others, like a social circle tracker. Built using Ruby and Sinatra with Postgres as database.

- Tic - Tac - Doh!
A Simpson-based logic game based around DOM manipulations using front-end languages such as HTML, CSS, Javascript (vanilla) & animation libraries.

Production Manager,   06/2013 – 03/2020
Tour Manager & Sound
Engineer
Freelance, Collingwood, Australia

Successful Music Industry professional I worked with bands such as:
- Xavier Rudd, Wolfmother, The Growlers & many more…
- Reduce touring expenses by 20%
- Improve technical equipment
- Cut set-up time by 25-40% by improving efficiency
- Learned to successfully manage a team in high pressure environments
- Learn to meet tight deadlines
- Learn to deliver the highest quality product on a daily basis

I AM..

100%	100%	100%
Passionate	Resourceful	Team Player

SKILLS

Development Skills

HTML / CSS	Professional
JavaScript, REACT	Competent
Ruby, Rails, Sinatra	Competent
NodeJS, Express	Competent
SQL (PostGres)	Competent
Agile || OOP || TDD	Good
REST methods	Good
TDD	Good

Languages

English	French	Spanish
Fluent	Native	Native

ACHIEVEMENTS

- Led team of 12 people on the road for 90 days
- Mixed musical bands for crowds of 40,000+ people
- Improved setup times from 4 hours to 2h30 hours
- Dealt with multiple stakeholders and difficult clients on a weekly basis
- Develop an unflappable attitude and solution-based mindset by working in the Music Industry
- Started a job as a pick-packer and within 2 weeks I was doing payable/receivable, payroll and daily bank reconciliation
